Academic Presentation

TITLE: Building a Wonderful World for Children Learning English.

ABSTRACT:
If we listen hard enough we can gain essential insights into our children's learning and affective needs. With these in mind, we can build a wonderful world full of language and content learning opportunities for them. In this presentation I hope to examine the principles that underlie successful language teaching to children. Participants will then be invited to take part in activities that make learning English more meaningful, memorable and fun.
